Frequency Coverage: 25-54 MHz 108-174 MHz 225-380 MHz 400-512 MHz for 4 hour trying to resolve this issue. I had programed multiple frequencies before this happened so that was not the issue. Finally, I disabled all banks except band 1 (ie if bank 14579 but left 1). When only 1 was left, I pressed the hold button, then held L/O until the scanner asked if I wished to unlock the scanner, I typed "E". The "SCAN MODE ALL LOCKED! was gone and everything has worked fine. G Mitchell G button. While searching, you can add or remove frequency banks 1-9 by pressing the corresponding 1-9 keys. The banks activated with. Gary Wool · July 11, 2020 2 of 5 found this helpful. Do you? | Report abuse Ran into the same situation and couldn't figure out why. Essentially there are no channels programmed into your scan banks. The search mode will scan through all the available channels but you should really get the bearcat programming software and a list of frequencies and program the channels but you should really get the bearcat programming software and a list of frequencies and a list of frequencies and a list of frequencies and a list of Hold to stop scanning. 2. Press and hold L/O until "Confirm Unlock All Channels?" appears in the display. 3. Press Pgm/E to unlock all or .Clr to cancel Knight Mode · October 25, 2020 2 of 9 found this myself. First of all you have to program the frequencies you want into the scanner. if it is still coming up as all locked out just hit the "1" button or whatever bank you have your frequencies in and make sure that particular number is showing up on the bottom of that page. That will allow it to scanner? It reads one channel. We want to start over and re- program from the beginning. Nancy C. · December 7, 2018 0 of 1 found this helpful. Do you? | Report abuse I hate this thing, the instructions are a joke. NO WHERE IN THE INDEX DOES IT COVER ALL SCAN OR ALL CHANNELS LOCKED OUT TA · March 25, 2020 6 of 6 found this helpful. Do you? | Report abuse I reviewed the 2 previous answers to your problem. To summarize the two conditions addressed: The unit must have frequencies correctly programmed into multiple channels and each of those channels must be unlocked and available (e.g., the banks not locked out). If those conditions are completely verified, then there may be a problem with the software or firmware. My unit did have an issue and it was repaired under warranty in a reasonable length of time (maybe 3 weeks?) Mtns2Lakes · December 8, 2013 3 of 3 found this helpful. Do you? | Report abuse As previously mentioned by some of the others, the reason for this condition is that you don't have any freq programmed yet. The best way to fix is to programmed yet. The best way to fix is to programmed yet. The best way to fix is to programmed yet. found this helpful. Do you? | Report abuse Read your book for how to unlock all channels, How ever if you have not programmed any channels locked. Jason F. · December 8, 2013 6 of 12 found this helpful. Do you? | Report abuse In this technological era where every aspect of our lives has been digitized, you would think that radio scanners are a thing of the past but make no mistake, these bad boys are still very much alive and in use. With the many options in the market to choose from however, it is wise to know what to look for in a radio scanner when you are shopping for one. If you are a radio enthusiast, then you know there are those features that any radio scanner should always have. For instance, how easy is it to program the scanner? How bulky is the scanner? Is it a digital one or an analog one? All these are questions you might have in mind when looking for a scanner. To make the decision making easy, this guide is going to have a detailed Uniden review to help you make an informed choice. Uniden Bearcat bc125at Review If you are looking for a radio that has a solid design then bc125at is one of the best options you can find in the market. At about 15 ounces, this scanner is lightweight and portable too. You can always take it with you on the road conveniently without hustle. This particular scanner is built to stand the test of time. The soft keypad makes keying in information easy and hustles free. The backlight on the screen enables you to use this scanner at any time of day conveniently. Have I already told you of the 500 channels, that this radio comes with? On top of the channels, you have about 10 banks you can choose from. If you would like to connect your scanner with your computer from time to time, then the USB cable port that bc125at comes with allows you to do that. You have two powering options with this scanner. You can switch from alkaline batteries to rechargeable batteries depending on which is most suitable at the moment. It is important to keep in mind not to charge alkaline batteries. Remember to switch off the AC charger always when using alkaline batteries. How to program Uniden bc125at Some customers have raised concerns of it being a bit hard to program this scanner. However, the Uniden comes with a manual that gives you a step by step guide on how to use the scanner. The Uniden scanner software is not that challenging to master. You will master how to navigate it in no time. You can always get some assistance on their website too should you have any issues. Uniden bc125at software and Features The bc125at scanner alpha tagging is one of the most appealing features. to any radio scanner enthusiast. With the 500 channels, it can be hard to keep track of who you are listening to. The alpha tagging feature, however, allows you to organize your channels. You can also arrange them in terms of categories like weather, aviation, police and so on. This makes it very simple to track who you are listening to. Another feature that will make using this radio control scanner very convenient for you is the close call feature. This feature that will make using this radio control scanner very convenient for you are listening to. Another feature that will make using this radio control scanner very convenient for you is the close call feature. military and civilian. The frequencies come preset in the various categories, police, aviation, fire, ambulances, and so on, so you can start listening immediately. Sometimes you may want to lost temporary locks our but permanent lockout is when you press the key two times quickly. The backlit display as I mentioned earlier allows you to use the scanner at any time of day even at night. Performance When it comes to performance Uniden bobcat scanner is pretty impressive in comparison to other scanners out there in the market. The battery life, for instance, is pretty impressive. It can go for up to a few days depending on your usage. The best thing is you can always carry a spare set of batteries to avoid getting stranded. When the battery runs out, you get a battery low alert so you can prepare and change the batteries. The receiver does a pretty good job of pulling signals with clarity. You, however, may be required to buy an external antenna if you want to enhance the coverage if weak signals with clarity. You get a battery low alert so you can prepare and change the batteries. antenna does not always do so very well. The audio quality is also very clear. You can hear the transmissions even in noisy streets. You don't have to be in total silence. After everything is said, Uniden bearcat portable scanner bc125at performance is one of the best in the market. Conclusion Uniden bc125at is one of the best in the market if not the bearcat portable scanner bc125at performance is one of the best in the market. small in size allowing you to carry it around with you if you decide to. Where prices are concerned, I can confidently say that with all the features available on this scanner, the money you spend getting it will be matched in value. You can own this scanner at just under a hundred dollars. That is relatively cheap. If you are targeting frequencies that are not close by, however, it would be wise to get an external antenna. Luckily, you can easily get one that is compatible with the scanner. All things considered, this is one of the solid radio scanners in the market for you today.
